

## The Carey School is at a Milestone Moment

Together, we have an opportunity to do more for our current students and be better positioned to serve generations of students to come. Through our “Expanding Possibilities” capital campaign, a new, larger building and refurbished courtyard will create more ways to learn and discover. A stronger financial foundation will make Carey a viable option for more families, enhance the diversity of our learning community, and provide additional opportunities for our cherished faculty. Please join us as we embark on this journey to expand possibilities and continue celebrating childhood into the next century.

Thank you for being part of this very special year at Carey.

Duncan Lyon  
Head of School

### The Carey School Mission

Specializing in elementary education, The Carey School inspires curious, confident, and joyful learners and celebrates childhood in an inclusive, diverse community that nurtures kindness, respect, and personal responsibility.

# Expanding Possibilities

THE CAREY SCHOOL  
CAPITAL CAMPAIGN

**It is a very special year for The Carey School**

We are excited to raise funds this year through a dual campaign: Our Annual Fund to support ongoing annual operations and our Expanding Possibilities Capital Campaign to raise funds to rebuild our first and second grade building, enhance our courtyard, and grow our endowment.

# Who will benefit from the Expanding Possibilities Campaign?

## Students

- Larger, modern and updated classrooms will enhance a student's learning experience
- Flexible learning spaces will provide students, who need extra support, a quiet space
- Dedicated spaces for group learning will benefit every student
- An additional multi-purpose room has endless possibilities for gathering and learning

## Faculty

- At least one dedicated office and five additional rooms can be used in a variety of ways
- The stress of our specialists locating available classrooms to work with students will be eliminated
- The courtyard as a classroom will allow for outdoor learning with modular and flexible seating
- A growing endowment will allow for more benefits for our educators, leading to higher retention

“

**THERE ARE SO MANY POSSIBILITIES FOR TEACHING THAT WILL COME WITH MORE FLEXIBLE LEARNING SPACE. AS AN EDUCATOR, I AM EXCITED TO BE PART OF A COMMUNITY THAT VALUES THE BEST LEARNING FOR OUR STUDENTS.”**

*-Westy Higgins, Learning Specialist*

Our Expanding Possibilities campaign is a special initiative that will enable us to create larger, smarter teaching and learning spaces. In addition, we will kick-start the growth of our endowment to provide sustainability as we plan for future generations.

The capital campaign has three components:

## The New Building

- 2-story 6,150 square foot building
- Four classrooms (892 square feet each)
- 968 square foot multipurpose room with elevated, 2-story ceiling
- Five meeting rooms for breakout groups and flexible learning spaces
- At least one dedicated office space

## The Expanded Courtyard

- 15,000 square feet of renewed space
- Improved functionality and design
- Flexible seating at modular tables for outdoor learning
- Durable, retractable shades for more frequent use
- The creation of a school-wide gathering space virtually all year long

## The Endowment

- Reliable income to provide long-term support for our financial assistance and curricular programs

We are excited to be in the public phase of our capital campaign: Expanding Possibilities! We were fortunate last year to raise over \$3 million to support this project and are excited for the entire community to join us to reach our fundraising goal of \$5 million this year. We hope you will join us to support this very exciting project that will have a lasting impact on students, faculty and families for many years to come.
